PROFILE

UX/UI and product designer with a foundation in graphic design and brand identity, currently completing a full-time Weiterbildung in UI/UX/AIX Design (until August 2026). I pair a trained visual eye for typography, layout and hierarchy with hands-on product work: user flows, wireframing, prototyping in Figma, and bringing concepts to life through AI-assisted development. My recent training projects include a scroll-driven 3D landmark experience, an AI summarizer, and Authoria, a writing app whose AI never writes a word and only asks better questions. German citizen based in Essen; Arabic (native), German and English at B2.

CORE SKILLS

- UX/UI: user flows, wireframing, prototyping, interaction design, responsive design, design systems, information architecture (foundational), usability, AIX (AI experience design)
- Design tools: Figma (primary), Adobe XD, Photoshop, Illustrator, InDesign, After Effects, Premiere Pro, Lightroom
- Also: AI-assisted development (React, three.js), WordPress, Shopify, prototyping & motion, brand identity, MS Office
- Languages: Arabic (native), German (B2), English (B2)

SELECTED PROJECTS

Burj Khalifa · Interactive 3D Web Experience

Figma · React · three.js

Designed and built a scroll-controlled descent of the Burj Khalifa: art direction, interaction design and AI-assisted development in React and three.js, as a solo course project. Live at [burj-wedge.vercel.app](#)

Precis · AI Summarizer

Figma · UX/UI

End-to-end design for an AI reading tool that turns long documents into trustworthy, structured summaries, with every claim traceable back to its source.

Authoria · AI Companion for Novelists

Figma · UX/AI

A writing app whose AI agents read the whole manuscript and surface story gaps but never write a word; they only ask questions, drawn from craft methodologies and literary masters (Balzac, Proust, Dickens). Designed so the author's voice stays entirely their own.

EXPERIENCE

Graphic & Visual Designer · Mikati Bau und Konstruktion

2017–2020

Beirut, Lebanon

- Produced architectural visualizations, brochures and marketing materials for construction projects.
- Built clear, structured layouts and coordinated closely with clients and project stakeholders.

Freelance Graphic Designer

2017–2020

Beirut, Lebanon

- Developed brand identities and logos for small businesses.
- Designed social-media content and digital layouts; grew client social engagement by around 30%.

Relocation & Professional Integration

2023–2026

Germany

- Achieved German language certification to B2 (AWO & WIPA, Essen).
- Held customer-facing and self-employed roles (hospitality; independent logistics) while integrating and reskilling in UX/UI design.
- Built a product-design portfolio of three self-directed projects: [mikati-portfolio.vercel.app](#)
